Dear A,

I hope you are doing well. Thank you again for accepting our invitation to run our JavaScript/ React Prep session this August. I hope you are still available for our class and would like to confirm your attendance for better preparation.

CoderSchool greatly appreciates your support and presence. If you have any questions, I am more than happy to support!

Looking forward to hearing from you soon,

Best Regards,

Thao Chau

Hi B,

This is a friendly reminder that you have not completed the Ruby on Rails **[Group survey](https://github.com/homer/duff_project.git)** we sent you last week, though the deadline was 9PM yesterday, 27 June 2018.

As you was informed, the survey is to group you into a group of 3 students, which was the basic requirement for the completion of the course. Please help fill out the mentioned survey no later than **11AM** today so we can match you with a suitable group on time.

Thank you for your cooperation,

Thao Chau

Hello C,

Congratulations! On behalf of CoderSchool, I am pleased to inform that you have been selected for the course of ****Machine Learning with Python**** starting July 9 at your campus that you have applied for.

Acceptance

Please review all of the attachments for the course requirements, policies and expectations. Note that at CoderSchool, we follow really strict principles to guarantee your result. If you are willing to proceed with our course, please indicate your acceptance by confirming via this email no later than ****Monday, 2 July 2018****.

Importance

* Start date: 9 July 2018

* Class time: 7PM - 9PM

* Weekly meeting for final project review: every Tuesday and Thursday at 6:00PM starting Monday, 16 July.

Should you need any further information, please do not hesitate to reach me. All of us at CoderSchool are here to support you every step of the way. Again, congratulations and see you soon!

Best Regards,

Thao Chau

Hello D,

I am Thao from CoderSchool. Thank you for joining us on our ***Data Science Tech Talk*** last January.

I found your questions for the Q&A part very interesting, and can see that you are really into building iOS apps. I believe that makes you the perfect fit for our [iOS Course](<http://www.coderschool.vn/courses/machine-learning>) starting this August.

At CoderSchool, we offers high quality, fast-paced training for engineers in iOS, Android, React Native, & Ruby on Rails. Our curriculum was developed in Silicon Valley and has been used at Facebook, Dropbox, Google, Uber, Yahoo, and other leading Silicon Valley companies. You can find more information about us [here](<http://www.coderschool.vn/about>).

We also have good connections and great alumni network in the industry, so if you perform excellent in your course, we can guarantee many opportunities for career matching after graduation.

If you are interested in the course, we are opening for registration. You can find the link above. If you have any concerns, feel free to reach me.

Hope to see you soon,

Thao
